

Watery Worlds – Computing Overview

Swans and Cygnets – Seas and Oceans

To be a Computer expert I need to;

- Login to my own purple mash account independently
- Create pieces of work and save it

Vocabulary: Login, username, password, save, log out

Hérons – Seas and Oceans

To be a Computer expert I need to;

- create information in a simple way on a laptop or tablet, save it, find it and change it

I will;

- listen carefully and follow instructions
- put information onto a spreadsheet
- save my work independently
- talk about what information is showing me
- ask and answer questions about information

Vocabulary: Spreadsheet, column, row, cell, copy, cut, paste, edit, toolbox, open, save, lock

Bitterns – Rainforests

To be a Computer expert I need to;

- collect, analyse, evaluate and present data and information.

I will;

- format cells
- calculate using a spreadsheet
- combine tools to make activities
- use a spreadsheet to model real life
- ask and answer questions about data

Vocabulary: average, spin, chart, formula, random, move, timer

Harriers – Rivers

To be a Computer expert I need to;

- collect, analyse, evaluate and present data and information.

I will;

- create computational models to solve problems
- collect and input relevant data
- add the correct formulas to cells
- explain what has been calculated and how the spreadsheet has helped

Vocabulary: probability, layout, efficiency, manipulate, format
